KOLAWOLE OGUNNIYI

Eldersburg, MD | kolaisaacogunniyi@gmail.com | github.com/ko449-wq

PROFILE

Computer Science student pursuing software engineering internships. Experience in frontend development, systems troubleshooting, software QA, AI evaluation, and academic research.

EDUCATION

B.S. Computer Science, Software Engineering Track

Towson University | Expected Spring 2028

Relevant study: Data Structures & Algorithms, Software Engineering, Refactoring, Cybersecurity, Web Fundamentals.

EXPERIENCE

Lab / System Administrator

Towson University | 2026 - Present

Troubleshoot classroom and lab technology, computer startup and domain connectivity problems, peripherals, and workstation issues.

Handshake AI Specialist

Handshake AI | 2026 - Present

Assess multimodal model outputs against rubrics; identify edge cases, record quality issues, and provide structured evaluations.

AI Trainer - Software Engineering & Generalist

micro1 | 2026

Apply software engineering knowledge and evaluation guidelines to AI training tasks and technical review.

Student in Residence, Software & AI

MascotGO | 2026 - Present

Contribute to software testing, QA activities, AI automation exploration, and product analysis.

Undergraduate Research Assistant, Health VR & Simulation

Towson University | Oct 2025 - Mar 2026

Assisted with research recruitment and procedures, VR system operations, testing sessions, and data organization.

SELECTED PROJECTS

SkillSpring - Frontend Development

React, TypeScript, Vite, Tailwind CSS

Built frontend pages and reusable UI components for a collaborative skills-oriented web application project.

Cub Critics - Campus Dining Review Concept

Product planning / web development

Designed the concept for a website supporting campus dining search, ratings, reviews, and student feedback.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, HTML, CSS | Frontend: React, Vite, Tailwind CSS | Tools: Git, GitHub, VS Code, SVN, Windows administration | Other: QA, AI evaluation, troubleshooting
